DIGITALLY TRANSFORM YOUR POLICY AND RISK ADMINISTRATION

AdvantageGo's software supports the whole (re)insurance lifecycle from pre-bind to post-bind policy administration, including claims management and reinsurance.

Our software transforms policy and risk administration by delivering operational efficiencies, eliminating data inconsistencies, and driving down costs with context-sensitive data capture and validations enhanced by powerful workflow automation.

Through our software, insurers can reduce claims leakage and grow customer satisfaction with a fully-integrated global claims management and administration solution.

Leveraging our pioneering Microservices, you can proactively manage risk with powerful real-time analytics and curated intelligence, to drive profitable growth.

THE PERFECT PRODUCT FOR RISK AND CLAIMS MANAGERS

Our flexible, configurable and trusted policy administration software supports the whole insurance lifecycle from pre-bind submissions and quotes, to post-bind policy administration including claims management and reinsurance. It also delivers out of the box integration with London Lloyd's Market Messaging.

Our cloud-based Microservices seamlessly integrate with our policy administration software for up-to-the-minute intelligence providing contextual value throughout the (re)insurance lifecycle.

FEATURES:

- ▶ Contextual embedded analytics to empower decision making
- ▶ Fully customisable Insurance Product Manager
- ▶ Seamless integration with document management and production systems
- ▶ Available with Lloyd's USM and SCM, London Market Acord FA and TA, ECF-WB and LORS messaging
- ▶ Collaboration capabilities and integration with cloud services
- ▶ Service-oriented architecture with public API's
- ▶ Business rules and workflows

BENEFITS:

- ▶ Deliver operational efficiencies, eliminate data inconsistencies and drive down cost
- ▶ Confidently make better informed and more effective decisions with real-time analytics
- ▶ Enhance your understanding of risk leveraging ground-breaking, proactive data sources
- ▶ Reduce claims leakage and grow customer satisfaction with high speed automation and insightful data
- ▶ Rapidly respond to changing market conditions and accelerate your speed to market with a proven, flexible and configurable solution

“

THE NAVIGATOR PORTAL WAS TAILORED TO OUR SPECIFICATION, ALLOWING US TO CENTRALLY MANAGE OUR SUBMISSION AND QUOTE PROCESS ACROSS UNIPOLRE. OUR SPEED OF SUBMISSION AND QUOTE PROCESSING HAS IMPROVED SUBSTANTIALLY SINCE THE SYSTEM'S INTRODUCTION. **MARC SORDONI, CEO, UNIPOL RE**
